Finance and audit professional with 2+ years of experience in treasury operations, internal audit, and SAP ERP — now transitioning into data analytics. Hands-on experience with Python, SQL, Tableau, and Power BI through real projects. Uniquely positioned to bridge financial operations knowledge with data-driven decision-making in corporate environments.

## PROFESSIONAL EXPERIENCE

### Senior Officer — Finance & Accounts

Apr 2024 – Jun 2025

— Energypac Electronics Limited | Dhaka, Bangladesh

#### BANKING & TREASURY

- Prepared cash flow statements to monitor liquidity and optimize fund allocation.
- Disbursed salaries, prepared bank advices, RTGS instructions, and managed payment files.
- Performed bank reconciliations between **SAP** and bank statements for transactional accuracy.
- Assisted CFO with key **financial reports** for board meetings — **AR aging, inventory aging, budget vs. actuals**.

#### COSTING

- Determined MRP and DP pricing through **margin analysis** and **market trend evaluation**.
- Assisted in stock clearance, gross profit margin, and selling price determination.

#### HR OPERATIONS SUPPORT

Jul 2024 – Jun 2025

- Processed monthly OT, allowances, incentives, and deductions for **payroll management**.
- Prepared HR documents: appointment, promotion, transfer, and separation letters.

### OFFICER — INTERNAL AUDIT & COMPLIANCE

May 2023 – Mar 2024

— Energypac Electronics Limited | Dhaka, Bangladesh

- Audited PR, PO, CS, VAT challans, and GRNs, **reducing errors by 80%**.
- Audited OT, TA, DA, and incentive policies — resulting in **20% cost savings**.
- Introduced training initiatives that enhanced accounting **accuracy by 85%**.
- Supported payroll audits, credit recovery, and performed inventory audits at factory and central store.

## DATA PROJECTS

#### E-Grocery Insights BD

Python · Selenium · Pandas · Tableau · GitHub

Scraped live product and pricing data from online grocery platforms using **Selenium**. Cleaned and transformed data with **pandas/numpy** in **Jupyter Notebook**. Built interactive Tableau dashboard to visualize pricing trends, Offer & savings distribution, brand dominance, and market insights. Published on **GitHub**.

#### RetailNexus

Pandas · SQL · Power BI · GitHub

End-to-end data analytics project built on a retail sales dataset. Simulated a real-world business intelligence pipeline — starting from raw data cleaning with **pandas**, structured storage in **PostgreSQL**, and finally an interactive multi-page dashboard in **Power BI**.
